

Hitch Hiker

PRODUCT CODE: [A8383](#)

Overview

The Hitch Hiker is an ideal way to transport an additional child behind a pram or stroller. The Hitch Hiker is a board that attaches to the rear of the pram or stroller.

It is a fun way of transporting toddlers. The toddler must be able to stand confidently upright without aid, be under constant supervision and weigh less than 30Kg to safely ride on the Hitch Hiker.

This model of Hitch Hiker will fit the Aero, Fleet Street, Evo2, Latitude, Tri Mode, Quad, Matrix, Matrix Plus, Metro, T3 Plus, Latitude for 2, Doubletake Tandem, Double Delight, Evo2 for 2 and fit most umbrella strollers
